Christian Seip

Web Developer

About Me

I am a German-speaking Web Developer with experience in building web apps with JavaScript, PHP & Angular. You can find my projects that include responsive websites and business apps in my public portfolio. I was enthusiastic about computers from a young age and started writing small websites with PHP at the age of 15. My job at Amazon gave me several opportunities to further my education in software development, so I decided to follow this path professionally. I am looking forward to building on my experience and starting my career in IT in a junior developer position.

Main Stack:

- JavaScript, TypeScript, Angular
- PHP
- HTML, CSS, Bootstrap

Side Stack:

- C#, Git, APIs (REST), Google Firebase

Skills

- **Building Applications with JavaScript, PHP and Angular:** I built landing-pages and several web apps as well as OOP-based Jump-and-Run-Games with the respective technologies.
- **Building Windows Applications with C#:** I built several Windows Applications with WF, WPF and UWP.
- **Working in a Software-Team:** During learning coding, I did several group projects where I learnt how to develop a software project in a team.
- **High sense of responsibility:** I am used to taking responsibility and working diligently as I always did in my job.
- **Fast Learner**: I am open to learning new skills and proved over the last months that I can work diligently towards a goal and achieve it.
